

FILTER & TILE CLEANER

Great General-Purpose Cleaner

'Filter and Tile Cleaner' is only the beginning for this amazing product! Great all-purpose cleaner in a convenient spray bottle is effective for most every 'dirty job', safe for most every surface.

- **One cleaner does it all**
- **Convenient spray bottle**
- **Safe on most every surface**
- **Does not affect water chemistry**
- **Removes waterline marks and grimy build-up**
- **Outstanding filter cleaner**
 - **cartridge elements - DE filter grids**
- **Great all purpose cleaner**
 - **grills - patio furniture - any outdoor surface**

Your yard is so much more inviting when it is clean and free from the grit and grime that can accumulate over time. Now Lo-Chlor has made it so easy to keep your outdoor surfaces clean and shiny. To clean most any surface, simply hose it down, spray on Filter and Tile Cleaner; let it work its magic for a minute and hose off. Really grimy surfaces may require a second spray and bit of a wipe and you are done. Cleaning filters, either DE or cartridge is just as easy...hose down, spray on and hose off. Done. Wood decks, PVC furniture, painted cement surfaces, grill tops...spray on and rinse off. Done. Pool tiles at water line...spray on and rinse off. Filter & Tile Cleaner will not affect the balance of your pool chemistry.

Convenient 32 oz. spray bottle

Please note: Mildew is an organic substance, and therefore requires a special mildew remover or a dilute chlorine solution (1 part chlorine to 10 parts of water), but most other soils respond brilliantly to Filter and Tile Cleaner. The age of pool vinyl liners may make a difference in how it reacts. Please spot-test first, especially on patterned vinyl.
