

LEAK SEALER

Repairs small, hard-to-find leaks

Fast-acting. Easy to apply. Effective.

Stop leaks, conserve water and protect your pool and its surroundings. You don't even need to know where the leak is to treat it effectively.

- **Usually works in 24 hours**
- **No need to empty pool or spa**
- **Seals minor leaks in most pools & spas**
- **Can seal leaks losing up to 1" of water per day**

Small, hard to find leaks can be more than just annoying. Left untreated, water that has escaped can undermine your pool and equipment. While major leaks need immediate attention from your swimming pool professional, minor leaks can be easily treated with Lo-Chlor Leak Sealer. Simply pour into your pool or spa at the site of the leak, if you know its location. If you don't know the location of your leak, pour recommended dosage into the skimmer. Lo-Chlor Leak Sealer will coagulate upon oxidation at contact with the leak. Highly concentrated, one quart is sufficient to treat a typical 15,000 gallon pool.
