

LO-PHOS PRO

Phosphate Remover

Safe. Powerful. Affordable.

Phosphates in your pool water are algae food. Eliminate the food and the algae cannot grow. Lo-Phos effectively eliminates phosphates from pool water and minimizes pool maintenance, reducing the use of other chemicals, and saving you money!

- **Non-toxic**
- **Safe for your family**
- **Professional Strength**
- **Safe for the environment**
- **Highly concentrated formula**
- **Compatible with all pool chemicals**
- **Boosts efficiency of sanitizing chemicals**
- **Great for use as weekly preventative maintenance**
- **Helps salt chlorine generators work more efficiently**

Like all living things, algae need food to grow. The most effective way to control algae growth is to deprive it of nutrients. Nutrients for algae are the phosphates introduced into the pool by bathers, fertilizers, rain water, vegetation and other pollutants. Lo-Phos PRO Phosphate Remover absorbs phosphate ions which are then easily filtered out of the water in regular pool circulation. Lo Phos PRO remains pH-neutral and provides pH buffering which aids in pool water balance.

It is non-toxic and, when used as directed, is safe for people, pets and the environment.
